Mirrors

**STANDARD SIZE TEMPERED GLASS MIRRORS**

Tempered glass mirrors are engineered for heavy-traffic, vandal-prone restrooms in K-12 school buildings, stadiums, outdoor recreation centers and low-supervision facilities such as parks and highway rest stops. Tempered glass mirrors resist breakage and provide a measure of safety from broken glass, but differ in color and reflective quality from standard glass mirrors. Bobrick uses the highest quality tempered glass mirrors. Modest distortion or heat-generated markings are normal in the tempered glass mirror manufacturing process. Therefore, Bobrick will not accept returns of tempered glass mirrors with random distortion or markings.

DESIGNER’S NOTES:

MICROBAN® ANTIMICROBIAL PRODUCT PROTECTION: A KOALA BABY CHANGING STATION EXCLUSIVE.
Microban technology is built into all Koala Baby Changing Stations and becomes an intrinsic part of the Station. When microbes, such as bacteria, mold and mildew that can cause stains, odors and product deterioration come into contact with the station surface, Microban protection penetrates the cell wall of the microbe and disrupts key cell functions so that the microbe cannot function, grow or reproduce. See Technical Bulletin, TB-12.
